

About Holmatro

Holmatro has a long experience in developing hydraulic rescue tools for fire and rescue organisations. Throughout the years this has also attracted other user groups looking for specialised hydraulic equipment, such as police, army and navy. Based on their input and requirements we have designed our new line of Special Tactics equipment.

Holmatro is a Dutch manufacturer of high-pressure hydraulic equipment for specialist user groups all over the world. We operate from 3 different business units: Rescue equipment, Industrial equipment and Marine equipment. Our products are known for their high quality and innovative character. Offices in various countries and an extensive dealer network look after the worldwide sales and service of these products.

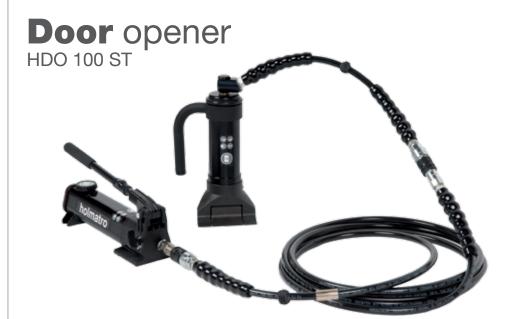

apartment buildings.

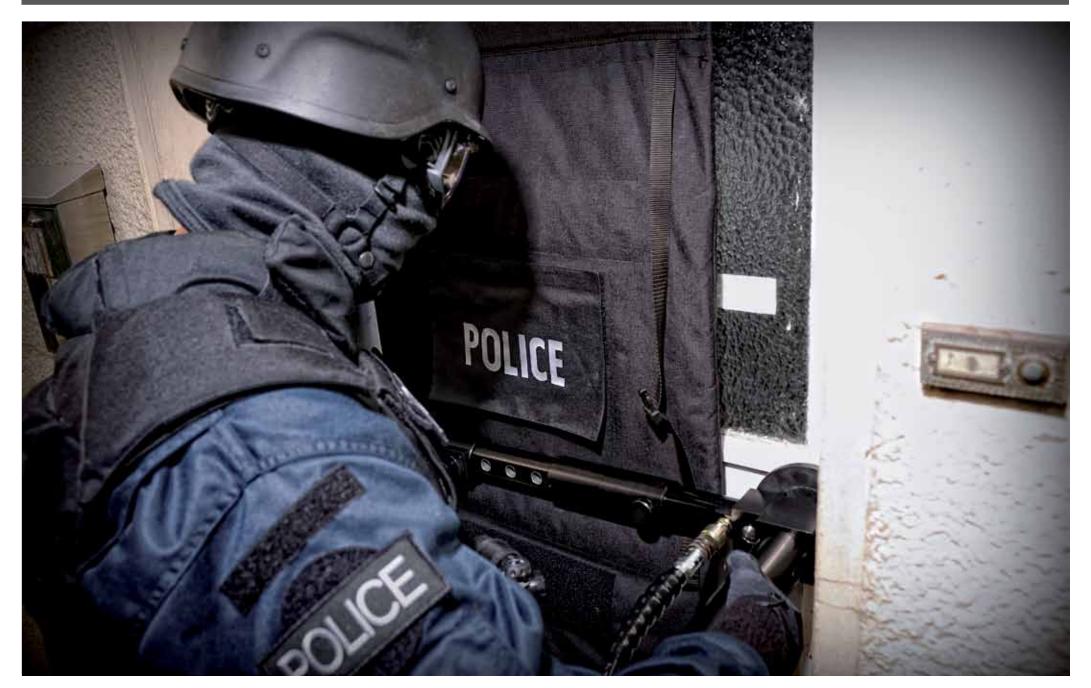

Features / Benefits (specifications see page 16)

- Low visibility
- Silent operation with hand pump
- High pushing force
- Extremely compact and lightweight
- Quick and easy installation and operation

Door opener HDR 50 ST

Designed for use on inward opening doors with multiple locking devices. Consists of a spreading cylinder to fix the door opener between the doorposts and a pushing cylinder to push the door open.

Features / Benefits (specifications see pages 17 - 18)

- Low visibility
- Silent operation with hand pump
- High spreading and pushing forces
- Low ready for use weight
- Adaptable to every door width
 - spreading jack manually extendible in 4 positions over 200 mm
 - hydraulically extendible with another 125 mm
 - can also be used with extension piece of 275 mm
- Quick installation and operation

Spreading open a roof hatch and cutting the barred window (see page 8) with a Holmatro battery-operated combi tool.

Battery-operated cutter and combi tool

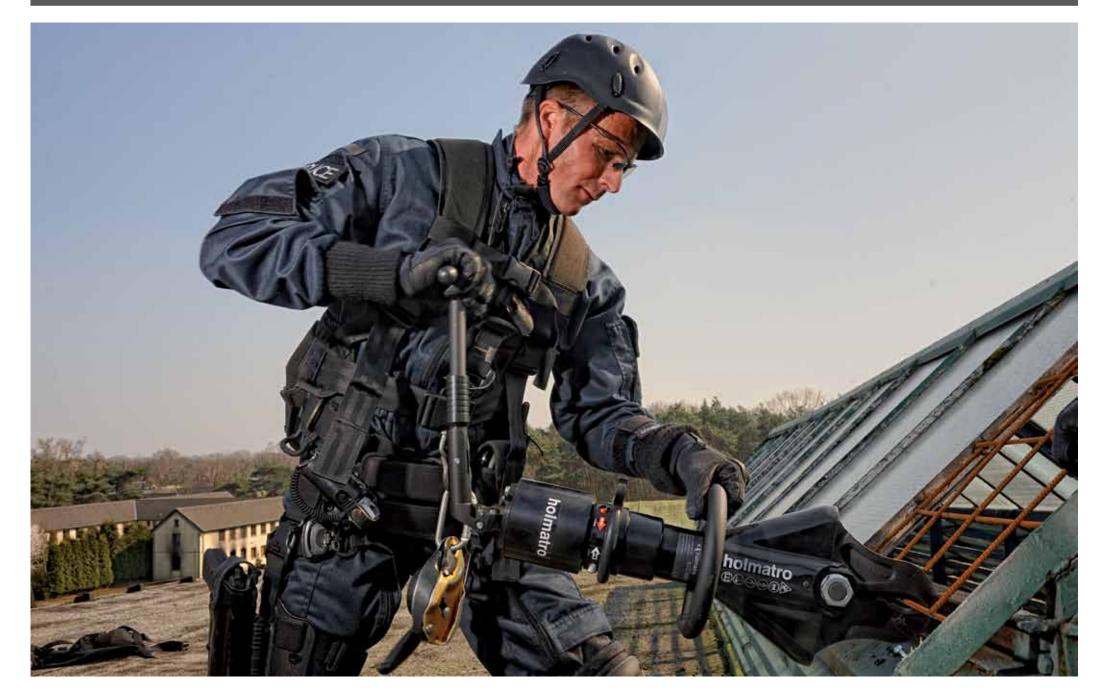

Features / Benenefits (specifications see page 19)

- Low visibility
- High cutting & spreading forces
- For ultimate mobility and freedom of movement
 - cordless, no external power source needed
 - low weight including battery
 - can be carried in a backpack harness
- Quick and easy operation
 - press start button for immediate use
 - battery can be changed in a matter of seconds: click-on / click-off system
- 24-V DEWALT® battery technology
 - battery rechargeable to 100% in less than 1 hour, to 60% in 30 minutes
- The choice is yours:
 - BCU 4010 GP ST for dedicated cutting
 - BCT 4120 ST combines cutting and spreading

Easy to carry in backpack harness (the same applies to battery-operated tools).

Hand-operated cutter and combi tool

Features / Benefits (specifications see page 20)

- Low visibility
- Silent operation
- High cutting and spreading forces
- For ultimate mobility and freedom of movement
 - tool and pump in one, no external power source needed
 - extremely low weight
 - can be carried in a backpack harness
- Quick and easy operation
 - immediately ready for use
 - simply fold out pump handle and start pumping
- Pump handle 180° rotatable and foldable
 - can be used in any position
 - easy transportation and carrying
- The choice is yours:
 - HCU 4010 GP ST for dedicated cutting
 - HCT 4120 ST combines cutting and spreading

Special Materials Cutter

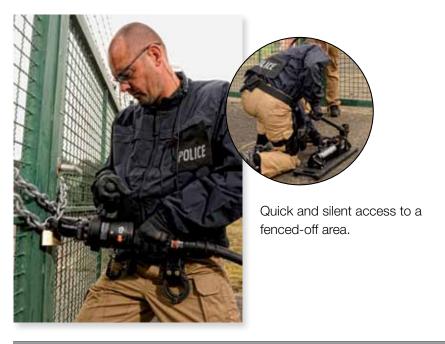

SMC 4006 C ST

Mini cutter specially designed to cut solid materials of high hardness, such as padlocks and chains.

Cutting loose an activist with Holmatro's Special Materials Cutter (see also page 12).

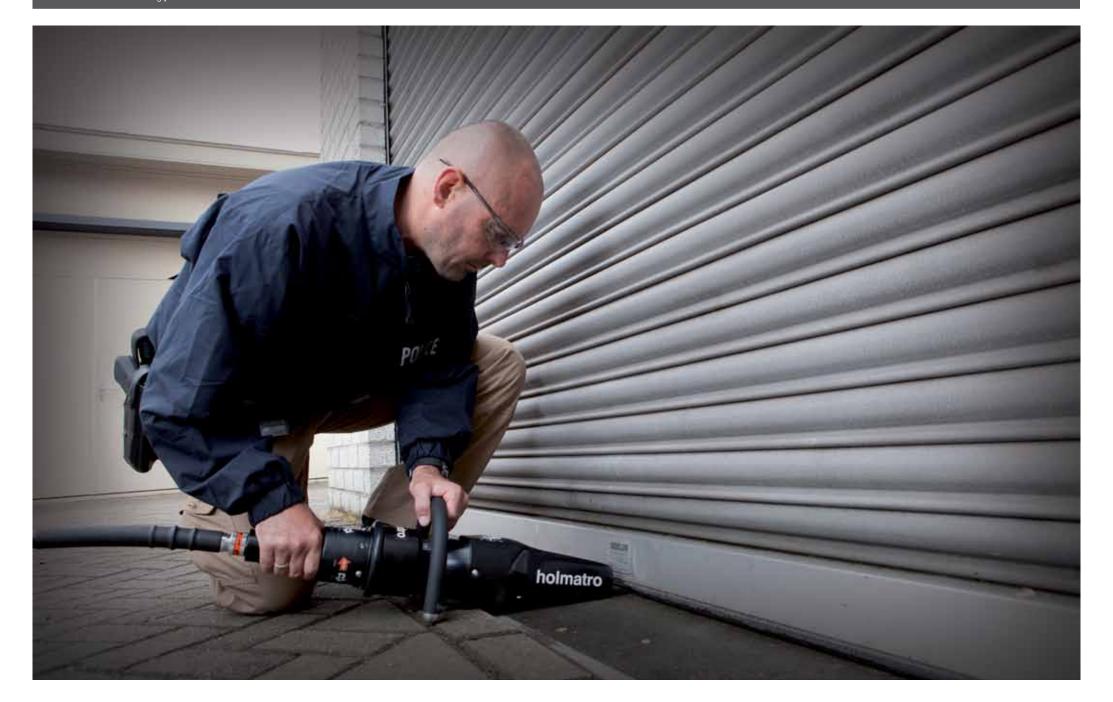

Features / Benefits (specifications see pages 21 - 22)

- Low visibility
- Silent operation with hand pump
- Designed to cut solid materials of high hardness, such as padlocks and chains - regular cutters cannot cut these materials (or only while suffering severe blade damage)
- Replaceable, easy to change blades
- Extremely compact and lightweight
- Adjustable, rotating carrying handle - simplifies cutting at various angles
- Quick and easy to use
 - connect tool to pump with hose
 - one man pumps, another man operates the tool

Power Wedges

These tools are specially designed to create an initial opening in narrow gaps. Thanks to silent operation ideal for tactical (sneak & peek) operations.

Features / Benefits (specifications see page 22 - 23)

- Low visibility
- Silent operation with (integrated) hand pump
- Combination of extremely small insertion height and high spreading force
 - ideal for space creation in narrow gaps
- Can create an opening of 51 mm
 - to create a larger opening, you can follow up with door opener HDO 100 ST or combi tool HCT 4120 ST
- Quick and easy to use

Easy to carry in backpack harness (HPW 4624 ST).

Other equipment, such as a combi tool, can follow up to create a larger opening.

Tool and pump in one offering ultimate mobility (HPW 4624 ST).
